Trusted and reliable expert providing B2B solutions for the beverage alcohol industry since 1991.

Alcohol Management Automator

National, 1991-Present

With over 30 years of experience managing over \$43 Billion in alcohol purchases across the country, we know we have the skills and work ethic you're looking for in a new hire. Owners, operators, and accountants of establishments that sell alcohol love us because we identify and remove tedious, manual processes that eat away all the time in your day. Ask one of the 200,000+ businesses that hired us how we eliminate headaches and stress and let the stuff that truly matters get the attention it deserves. **This is how our relationship begins:**

- We pay your alcohol invoices on-time. COD or terms, makes no difference to us.
- We clean up your invoice data and send it directly into your back-office system.
- When we deliver your data, we deliver it with GL coding
- You can request credits from your distributors through us.
- We can give you a digital copy of any invoice over the past 15 months.
- We build you an invoice data portal experience, so you know what's happening all the time.
- You can see things like:
 - When an invoice payment is coming out of your bank account
 - When the price of a purchased product changes
 - When you are paying unnecessary split case fees
 - What you are buying and spending with each of your distributors

BONUS – we are actively building our skill set to do this for all your purchases, not just alcohol.

Interview us and learn how we help with: **BEVERAGE PROGRAM COMPLIANCE, MARGIN PROTECTION, INVENTORY MANAGEMENT, PRICING AND PROMOTIONS, PRODUCT ASSORTMENT, and MICRO-TRENDS.**

Scott Estes

VP Business Development & Franchise Sales, Ford's Garage

“Choosing Fintech to help manage our beverage alcohol category was such a simple decision. They provide a convenient system that's easy to implement when opening new locations and the service after sales has been fantastic. There are many factors that go into beverage alcohol management and Fintech takes the headache out of all of it. Simply put, using Fintech is a no brainer!”

Mike Lester

CEO & Co-Founder | Walking Tall Brands, LLC

“All three of our locations use Fintech. I don't know of any Walk-Ons that doesn't. I don't know why anyone wouldn't! It helps keep us organized and makes the logistics simple.”
